**KEEL LAID FOR THE FOURTH STEALTH FRIGATE OF PROJECT
17A ON 28 JUNE 2022**

RAdm G K Harish, Director General Naval Design- of the Indian Navy laid the keel of the fourth ship (Yard- 12654) of the prestigious P17A class stealth frigates on 28 Jun 2022.

P17A warships are follow-on warships of the Shivalik class stealth frigates. Seven frigates in this series will be constructed of which four are being constructed in Mazagon Dock Shipbuilders Limited (MDL) and three in GRSE with MDL as the lead yard. The P17A class frigates are being built using indigenously developed steel and fitted with state-of-the art weapons and sensors along with Integrated Platform Management System. These ships are having enhanced stealth features.

Construction of P17A ships differ in the very concept of warship building by way of adoption of a state-of-the art methodology namely, 'Integrated Construction (IC)' where the blocks are pre-outfitted before joining to reduce the build period of warships. When commissioned the platforms will exponentially enhance the combat capability of the Indian Naval fleet.
